Assignment 1: Intro to HTML
***index.html* page layout**

```
graph TD; Header[Header] --- ContentA[Content A]; ContentA --- Image[Image]; Image --- MediaPlayer[Media Player]; MediaPlayer --- Footer[Footer];
```

The diagram illustrates the layout of a web page, showing five distinct sections arranged vertically. Each section is represented by a colored rectangle with a black border, containing a title and a brief description.

- Header** (Light Green): Meet the PG24 Class
- Content A** (Light Purple): Introduction to the PG24 class.
- Image** (Light Purple): Of the whole PG24 class
- Media Player** (Light Purple): Music for personalisation and interactivity.
- Footer** (Yellow): Copyright notice and contact info

Assignment 1: Intro to HTML
pg24student>..html page
ayout

```
graph TD; subgraph Header; H1[Meet the PG Students]; H2[Name of the PG student addressed on the page as header]; end; subgraph ContentArea[Content Area]; C1[Content]; C2[Bio of the PG student]; end; subgraph ImageBox[Image]; I1[Image]; I2[An image chosen by the PG student to be in their profile]; end; subgraph Footer; F1[Footer]; F2[Copyright notice and contact info]; end;
```

The diagram illustrates the layout of a 'Meet the PG Students' page. It is divided into three main horizontal sections: a green header, a large purple content area, and a yellow footer. The header section contains the title 'Meet the PG Students' and a note indicating that the student's name will be used as the header. The content area, which is the largest, contains the title 'Content' and a note indicating that it will contain the student's bio. Below the content area, there is a smaller purple box labeled 'Image', which is intended for a profile picture. The footer section contains the title 'Footer' and a note indicating that it will contain copyright notice and contact information.
